

Technical Bulletin

DESCRIPTION / FEATURES:

FLOOR MEDICS UV CLEANER

is a specially formulated cleaner that quickly breaks down film residue of protein & minerals on the surface of swimming pools & matt surface tiles that are damaged by ultra-violet light. It cleans, rejuvenates and restore surfaces to its original condition.

■ USES:

- Recommended for use on granite, porcelain tiles and other acid resistance stone & tile surfaces.

■ AVAILABLE SIZES:

- UV Cleaner is available in 1Litre or 5Litre / bottle

■ COVERAGE:

- Depending on dilution and condition of floors treated, approximately 200 to 2,000 sq ft. (19m² to 200m²)

■ METHOD OF APPLICATION:

- Read entire label before using.
- **TEST A SMALL AREA**, according to application instructions, to determine desired results.

FLOOR:

1. Sweep, vacuum or dust mop the floor surface.
2. Mix 1 part of Floor Medics UV Cleaner to 5 parts of water for light duty cleaning such as removal of light cement & grout haze.
3. Apply solution onto surface, allow to dwell 1 to 2 minutes and scrub surfaces with nylon bristle brush or pads
4. Rinsed with water and vacuumed dry cleaned surface.

GLASS:

1. Clean glass with approved neutral cleaners to remove surface dust & dirt.
2. Apply UV cleaner onto glass using a dry towel or cotton cloth.
3. Wipe or buff off immediately after each application. **Do not allow excessive UV Cleaner to dry on surface as prolong exposer may etch glass.**
4. Wash/Rinse surface with Floor Medics Neutral Cleaner to remove any remaining residue.

■ LIMITATIONS:

- Do not allow solutions to come into contact with non-recommended surface

■ HANDLING AND STORAGE:

- Close container after each use.
- Store in original container only.
- Unused, Store product is freeze-thaw stable.

▲ **CAUTION:**

- **KEEP OUT OF REACH OF CHILDREN.** Do not take internally.
- Sweep area to remove any loose dirt or soil
- Rubber Gloves should be worn during application.
- Contains phosphoric acid.
- **INHALATION:** Move to fresh air.
- **IF INGESTED:** Do not induce vomiting. Drink 1 to 2 glasses of water. Seek immediate medical attention.
- **EYE CONTACT:** Flush thoroughly with water for 15 minutes. If irritation persists, seek medical attention.
- **SKIN CONTACT:** Wash skin with soap and water. Remove contaminated clothing
